

Pythagoras

- Marvelled at the reliable and predictable mathematical patterns that exist in the universe.
- Proved that $c^2 = a^2 + b^2$
- By using mathematics, he made important contributions to astronomy, music, and philosophy.

However, He worshipped numbers rather than the God who created them!

The Bible says: "They exchanged the truth about God for a lie, and worshiped and served created things rather than the Creator—who is forever praised.

Amen." Rom. 1:25
